

DURATION
26 Weeks

AUR40216 Certificate IV in Automotive Mechanical Diagnosis

This qualification reflects the role of individuals who perform a broad range of Mechanical Diagnosis and Repairs on various vehicles in the automotive industry.

No licensing, legislative, regulatory or certification requirements apply to this qualification at the time of publication.

ENTRY REQUIREMENTS

Entry into this program requires International Students to fulfil requirements as listed below:

-  *Must be 18 years of age or over.*
-  *Completed year 12 (HSC or equivalent)*
-  *Minimum 5.5 IELTS score or equivalent*
-  *Those undertaking the Certificate IV in Automotive Mechanical Diagnosis MUST have completed AUR30616 Certificate III in Light Vehicle Mechanical Technology or its successor AUR30620 Certificate III in Light Vehicle Mechanical Technology qualification or be able to demonstrate equivalent competency*
-  *International students are required to hold Overseas Student Health Insurance cover for the duration of the course*
-  *Students must also hold a current and valid passport, a valid study visa that covers the duration of study for the course*

DELIVERY MODE

A blended combination face to face simulated/theory instruction, self-directed learning, simulated training, workplace supervised tasks (on the job training and assessment for selected units) and final assessment

EMPLOYMENT PATHWAY

Job roles and titles vary across different industry sectors. Possible job titles relevant to this qualification include:

-  *Automotive Heavy Vehicle Master Technician*
-  *Automotive Master Technician*
-  *Automotive Mechanical Overhaul Technician*
-  *Performance Vehicle Technician*

AWARD

To be eligible for the AUR40216 Certificate IV in Automotive Mechanical Diagnosis award, learners must complete a total of 10 units, 1 core units 9 electives.

Students who successfully complete this nationally recognised qualification awarded a certificate for AUR40216 Certificate IV in Automotive Mechanical Diagnosis

A Statement of Attainment issued for any unit of competency deemed competent if the full qualification completed. Awards generated after successful completion of this course and full payment and a verified USI received

CORE UNITS

- AURTTA021 Diagnose complex system faults

ELECTIVE UNITS

- AURETR037 Diagnose complex faults in light vehicle safety systems
- AURLTB104 Diagnose complex faults in light vehicle braking systems
- AURLTD109 Diagnose complex faults in light vehicle steering and suspension systems
- AURLTE104 Diagnose complex faults in light vehicle petrol engines
- AURLTE105 Diagnose complex faults in light vehicle diesel engines systems
- AURLTX104 Diagnose complex faults in light vehicle transmission and driveline
- AURTTA125 Diagnose complex faults in vehicle integrated stability control systems
- AURTTR101 Diagnose complex faults in engine management systems
- AURAEA004 Manage environmental and sustainability best practice in an automotive workplace

DURATION

26 Weeks – Includes 2 weeks holiday

Delivery mode

A blended combination face to face simulated/theory instruction, self-directed learning, simulated training, workplace supervised tasks (on the job training and assessment for selected units) and final assessment

LOCATION

Before the commencement of training, a schedule referred to as the student program guide/training plan will be provided. All training and assessment services will take place on and off the job.

Theory training: Level 6 68 Grenfell Street Adelaide SA 5000

Simulated Automotive Workshop: Hamstead Auto Repairs 22 O G Road, Klemzig SA 5087

Work placement will be confirmed at the time of scheduling

HOW WILL I BE ASSESSED FOR THIS COURSE?

All units within the qualification have assessment tasks, with set due dates for completion. The tasks include:

- Written Assessment (Assessment 1 – Questioning – Written Assessment). Several mainly short answer, fill in the gaps, multiple-choice or true/false type questions
- Practical Demonstration of Task (Assessment 2 – Direct Observation Practical Demonstration of Tasks). Demonstration of practical tasks, which may be a single task or job role, or several small, related tasks assessed in a simulated assessment environment
- Case study -A given scenario usually based around a workplace with various issues or problems and several questions or short tasks based on the scenario
- Project / Assignment -A large, related task, usually with several parts or stages, may be based on the workplace or a simulated workplace situation. It may include practical assignments, case studies, and role-plays, or research tasks.
